ASHLEY FACTS

Our Cover Stories

Wear Tested Fabrics

- ◆ **Chenille:** A man made fiber made with a combination polyester, acrylic, or nylon. Woven yarns. *Soft and comfortable and very popular*
- ◆ **Perfomance:** Many of our fabrics made from polyester. Very soft and durable. Great for families. AKA: Microfiber - *Easy to clean*
- ◆ **Nuvella:** Solution dyed fabric. The color is through and through like a "carrot." Standard fabrics are constructed like a "radish" *Fade resistant, easy to clean.*
- ◆ **Leather** A natural raw material, physical properties allow for a typical lifespan **4 x** that of fabric. Gets better with age. *A true luxury product.*
- **Top Grain Leather match**
- * **PU Sides/Backs:** A man-made fabric that resembles leather with an embossed grain pattern. Very durable and cleanable, used in leather match

Sectionals = Now 60% of Ashley upholstery sales
