Todd Wanek

president and CEO

Furniture is in Todd Wanek's DNA, but his passion for the business was ignited during his high school and college years when he worked in all aspects of the company, including manufacturing, shipping, machine maintenance, product design, engineering, finance and global sourcing.

TODD HAS BUILT AN EXTREMELY SKILLED LEADERSHIP TEAM WITH EXTRAORDINARY DEPTH, DIVERSITY, AND UNDERSTANDING OF THE INDUSTRY.

After graduating from the University of Wisconsin-Stout with a Bachelor's Degree in Industrial Technologies, Todd and his wife Karen moved to Asia, where he served as General Manager of Ashley's Taiwan manufacturing and distribution facility. He spent five years (1989-1993) learning the culture and developing Ashley's innovative supply and manufacturing base throughout the region; including China, Malaysia, Taiwan and Indonesia.

In 1994, Todd returned to the U.S. where he spearheaded Ashley's entrance into a lucrative new category with the purchase of an upholstery operation in Ecru, Mississippi. Over the next two years, Todd became responsible for all upholstery product, as well as the growth of the company's international operations.

Through Todd's accomplishments in all aspects of business operations, he was promoted to President and Chief Operations Officer in 1996, assuming responsibility for Ashley's worldwide operations.

In 1997, the company developed an outlet to sell directly to their customers by opening the first Ashley retail store in Anchorage, Alaska. Having a retail presence provided a new means of feedback from the voice of the customer. The success of Ashley retail grew throughout the U.S. and the world.

By 1999, Ashley became a major player in almost every home furnishing product category along with becoming one of the best marketers in the furniture industry. Todd's knowledge became instrumental in developing and implementing

Ashley's "blended manufacturing strategy." This foundation is the cornerstone for Ashley's increasing employment base and consistent market share growth.

With proven leadership and vision, Todd became the Chief Executive Officer of Ashley Furniture Industries, in 2002, a position he holds to this day. His passion and commitment to improve Ashley's operations, products and service is unrelenting and has positioned the company for continued growth into the future. Staying true to Ashley's vision, "We want to be the best home furnishings company," he continues to cultivate the company's continuous improvement culture. As such, throughout the years, Todd has built an extremely skilled leadership team with extraordinary depth, diversity and understanding of the industry.

Today, Ashley Furniture is not just the world's largest furniture manufacturer and the largest home furnishings brand in North America, it is now a leader in technology innovations; investing tens of millions of dollars each year in people and technological processes to improve every aspect of the company's performance. Through tremendous focus on costs for end consumers, Todd has built the strongest supply chain in the furniture industry, constantly evolving to serve customers wherever and however they want to buy home furnishings.

While Todd continues to focus on the advancements of technology for the furniture industry, he and his family have also invested heavily in the advancements of medical research and sustainable agriculture. The Wanek family is committed to helping find cures to some of our most horrendous diseases. Most notably, to find a cure for Type 1 diabetes through City of Hope and Hypoplastic Left Heart Syndrome through the Mayo Clinic.

Todd and Karen have two children, Cameron who is the Senior Vice President of Supply Chain and Business Analytics for Ashley, and Gabrielle who works as a Business Systems Analyst.

Ron Wanek

founder and chairman

As patriarch of both the family and the family business, no one is as emotionally and financially invested in the success, growth and future of our company than our founder, Ron. He has made it his life's mission to mentor and inspire this generation and those that come after it.

Ron Wanek is the Founder and Chairman of Ashley Furniture Industries. With 30,000,000+ sq. ft. of manufacturing and distribution space, and more than 1,125 Ashley retail stores, Ashley is the world's largest furniture manufacturer and the largest home furnishings brand in North America.

Growing up on a sharecropper's farm in Utica, Minnesota, instilled Ron with a strong work ethic and ambition to succeed. In 1961, he began working for a newly formed furniture company called Winona Industries. In 1970, he took his knowledge of the furniture industry and set out on his own to establish and manage Arcadia Furniture, a small company of only 35 people manufacturing occasional tables in Wisconsin.

Ron knew the logistics of delivering product to his retailers, as well as sourcing raw materials, was a critical component of the business. In 1974, he formed the company's transportation division which has gone on to become the largest private freight carrier of all manufacturing companies and the largest importer of furniture in North America. In 1982, a major restructuring occurred at Arcadia Furniture, resulting in a merged company known as Ashley Furniture Industries, LLC. Shortly after, Ron foresaw the threat Asia manufacturers had on his business model, so he established overseas manufacturing and distribution capabilities to compete with the worldwide market through this blended strategy.

Throughout the 80s and 90s, Ron lead the company through numerous rebirths, realigning operations to meet customer demand. This included adding new product categories, expanding the company's footprint and entering the retail industry with Ashley stores.

Guided by his determination, vision and expertise, Ron grew Ashley into an international manufacturing and retailing giant. Today, Ron Wanek and Ashley Furniture are iconic names in the furniture industry, serving as an example to the world that the American Dream is alive and well.

Outside of the business, Ron is highly regarded for his philanthropic initiatives. In 1998, Ron and his wife Joyce started the Ronald & Joyce Wanek Foundation, making personal gifts of tens of millions of dollars to a multitude of their favorite causes. These include the furniture industry, children and families in need, medical research, education, arts, and honoring our armed forces.

Ashley and the Wanek Family continue to support education to help secure our country's position as a world leader in technology and advanced manufacturing. They have developed a number of partnerships with K-12 and post-secondary schools, colleges and universities. Combined efforts have included investing in STEM-based learning, scholarships, providing students with exposure to technical trades and career opportunities, instructor training, and robotics programs.

Among his many philanthropic contributions, Ron is the lead benefactor of Soldier's Walk at Memorial Park in Arcadia, Wisconsin. Known as one of the nation's premier salutes to veterans, the 500-meter walk captures all U.S. wars with over 20 monuments and various memorials.

Through its history, Ashley has been a family company. In 2002, Ron appointed Todd, his son, as President and CEO of the company. Ron's other two children and five of his grandchildren are also actively involved in the business.

GUIDED BY HIS DETERMINATION, VISION AND EXPERTISE, RON GREW ASHLEY INTO AN INTERNATIONAL MANUFACTURING AND RETAILING GIANT.

Advancing Medical Research

HeartWorks

Leading the largest congenital heart defect consortium in the world focused on developing new treatment options.

Hypoplastic Left Heart Syndrome (HLHS) is a rare defect present at birth where the left side of the heart cannot effectively pump blood to the body. **Created in 2020, HeartWorks advances the product development pioneered by the Todd and Karen Wanek Family Program for HLHS, founded at Mayo Clinic in 2010.** The program consists of a dedicated team of physicians, researchers, lab specialists, and clinical operations staff working diligently to find innovative solutions toward treating this and other rare heart defects. The program's mission is to support education, research, and new technology to understand why heart defects develop and progress, while also driving the development of cell-based therapies to repair heart tissue. The program also builds new heart muscle to create new treatment options for infants, children, and adults affected by congenital heart defects (CHD).

City of Hope

The Wanek Family Project, launched in 2017, is a comprehensive effort to find paths to a cure for Type 1 diabetes (T1D).

The more than 100 ingenious scientists, physicians, and other staff who are part of the Wanek Family Project for Type 1 Diabetes at City of Hope are united in pursuit of a singular ambition: reversing T1D. Their work involves digging into the secrets of genetics, the immune system, beta cells and diabetic complications.

This includes stopping the progression of the disease, and protecting and regenerating beta cells.

"we have absolute faith that this program will ultimately find a cure for diabetes."
-Cameron Wanek

ENRICHING LIVES, THE ASHLEY WAY

Ashley Cares

Our mission inspires meaningful change for our people, partners and communities.

WE STRIVE

to not only deliver an end result to our customers that earns their loyalty year after year, but to make a **greater impact on the world.**

WE CHAMPION

social, educational, environmental and health issues by **devoting meaningful resources to a variety of initiatives** throughout our communities.

enriching our communities hope to dream

Ashley believes that every child deserves a good night's sleep. That's why we founded "Hope to Dream" in 2010. The program provides brand new beds to children in need across the U.S. and Canada. A portion of every mattress sale from a participating store helps pay for each bed. And since its inception, more than 155,000 beds have been donated.
